COMPANY OVERVIEW

D. & C's W Farms, LLC is a small, construction firm based in South Georgia, specializing in commercial, institutional, and infrastructure projects for federal, state, and local government agencies. Our team brings decades of combined experience in general contracting, project management, and infrastructure development, delivering high-quality, cost-effective solutions that meet the stringent requirements of government contracts. With a focus on efficiency, integrity, and compliance, we take pride in our ability to execute projects of all sizes while maintaining superior craftsmanship and adherence to safety and environmental standards.

CORE COMPETENCIES

General Construction & Building Services – New construction, renovations, and alterations for commercial and institutional buildings. Infrastructure & Utilities – Water and sewer line construction, site development, and utility installation. Dredging & Piping Landscape Work – Specialized expertise in land development, erosion control, and drainage solutions. Facility Maintenance & Repairs – Restoration, refurbishment, and repairs for administrative and service buildings. Government Contracting Expertise – Compliance with federal acquisition regulations, certified small business contractor, and experienced in Davis-Bacon and prevailing wage projects.

PAST PERFORMANCE

Jeff Davis County – Poolhouse Recreation Building and Youth Center Gymnasium Renovation

D. & C's W Farms, LLC completed the full renovation of the Jeff Davis County Poolhouse Recreation Building and Youth Center Gymnasium. Work included structural upgrades, new roof trusses, ADA-compliant restrooms, new flooring, lighting, and exterior siding. Completed on time and within budget, the project improved safety, usability, and aesthetics while showcasing our expertise in multi-disciplinary construction and local compliance.

Alamo, GA Housing Authority – Roofing Project

D. & C's W Farms, LLC completed a large-scale roofing project for the Alamo Housing Authority, replacing old systems with durable metal roofs on 27 residential units. Following Hurricane Helene, our team responded within two hours to install emergency tarps, protecting residents from further loss. Completed on time and within budget, the project demonstrated our ability to manage federally funded housing work, respond quickly to disasters, and deliver safe, high-quality results.
